

# Mrs. Nomed's Respectable Lodging- House

(A *Discworld Roleplaying Game* Scenario, being a preview  
of the forthcoming new edition of the game)

Mrs. Eulice Nomed runs a respectable lodging house in Ankh-Morpork, which is  
the best place that you can find to live while you make your fortune in the city.

There are, no doubt, worse landladies, so you don't object too much to Mrs.  
Nomed's funny little rules.

Anyway, when what's in the cellar bursts forth upon the unknowing mortal world,  
frankly, paying your rent a month in advance and wiping your feet when you come  
through the door will be the least of your worries.
